Step 6

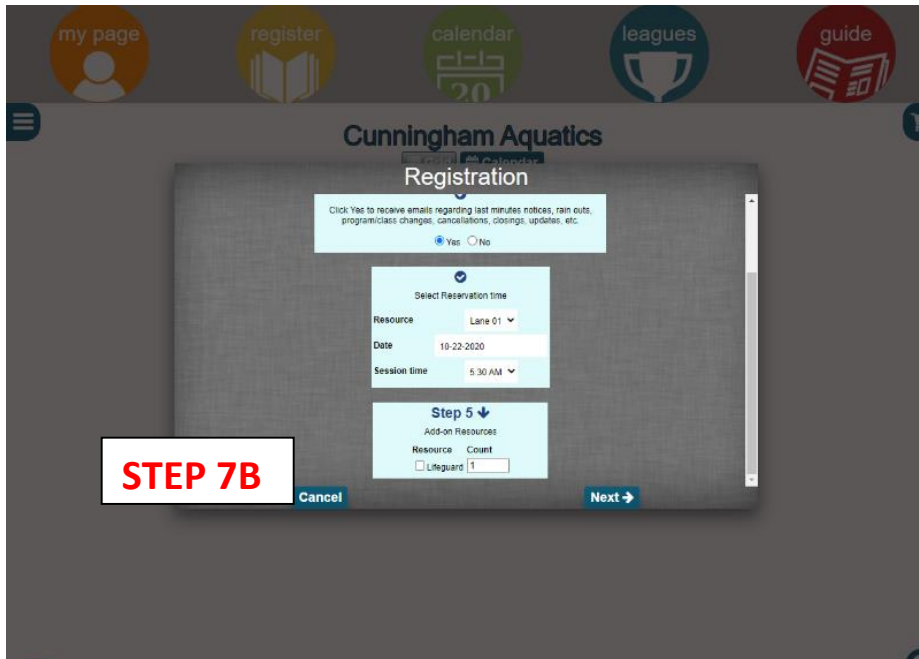

Lap lane rentals will appear in the middle of the screen. Select your name and click next at the bottom.

STEP 7A

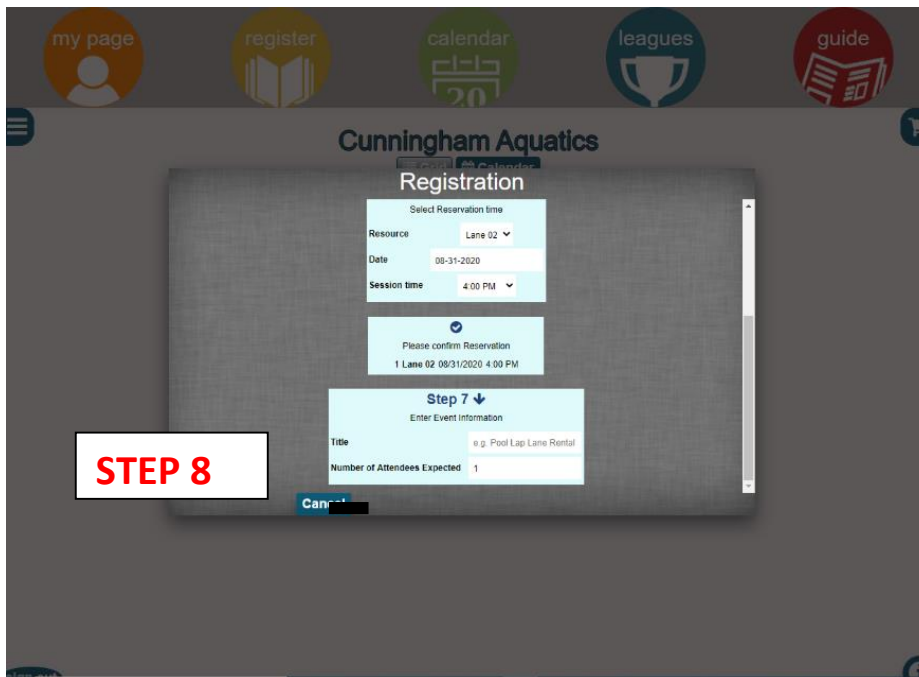

A second text box will appear, asking if you would like email updates. Select yes or no.

Select the lane, date, and time you want to reserve.

In step 5, where it asks for “add-on resources,” do not select anything and just simply press the next button.

For this step, you will have to type in a title for the reservation. Name it “Lap Swim.” Please note, even though it allows you to have more than one attendee, you are not allowed to have anyone but yourself attend.

Then click next, checkout, and pay with an accepted credit card.
